

There's more to the Twin Oaks Landfill than meets the eye...

Behind all of this [trash] is a team of people who truly care about their customers.

"They've been pretty nice to me. They've got water. They give us free snow cones. It's been meaningful for me."

Exactly. To show they care, the Twin Oaks team...

Keeps all visitors hydrated with cold water... the cooler is located in the shade just after you check in at the scale house. Feel free to stop by and grab a few bottles for yourself.

Provides state-of-the-art restroom facilities for drivers who might not have access to a facility otherwise. Drivers' days can be very long, and they are often unable to stop and park at a gas station or convenience store like you and I would. Our facilities allow drivers to use the bathroom, grab a snack, and hang out in the shade for a while before they get back on the road.

Plus... "It's free snow cone day!" Throughout the summer months, which for Texas is essentially all year long, the Twin Oaks team invites their friends from Fire and Ice to the landfill to serve up icy treats for all their customers.

And, of course, every member of the Twin Oaks team abides by the golden rule and always treats others with respect.

"All of the people here are very professional. They treat you well. They get you in and out as fast as they can. They can't help the weather or the mud, but overall, it's been a good experience."

So, what are you waiting for?

"Come on through!"
