

Did you know that the BVSWMA team wants you to be safe when you visit the Twin Oaks Landfill?

Here are some tips.

Be seen. Always wear bright colors or appropriate PPE on the working face.

Keep your head up. Never use your cell phone while driving a truck or operating equipment.

Slow down speed racer! Drive the speed limit and remember there are other trucks on the roads.

Be situationally aware. These machines weigh up to 100,000 pounds.

Wear your seatbelt and ride in the cab of the truck– NOT the back. And as much as we love your pets, please leave them at home.

Absolutely no scavenging. One man's trash is not your treasure, it's ours.

Most importantly, use your common sense. If you don't have any, following these rules will help keep you safe.

The Twin Oaks Landfill team has been trained to provide a safe and efficient operation, so please ask them questions and follow their direction at all times.
