

Did you know that BVSWMA, Inc. is a local government corporation?

BVSWMA, Inc. was formed in 2010 with the primary function of developing and operating the Twin Oaks Landfill.

In 2011, the first trucks brought trash to the brand-new Twin Oaks Landfill!

By that time, our fearless leader, Bryan Griesbach, had taken his rightful position as Executive Director of BVSWMA, Inc.

The BVSWMA Board consists of 7 members who represent each city and the community at large.

From then to now, BVSWMA has been considered a huge success. So much so, that it has been replicated by other entities in the State of Texas, such as the North Texas Emergency Communications Center.
